THE INTEGROUS DIFFERENCE

We are Integrous: fence and deck builders who believe that craftsmanship and care go a long way. We take pride in every project we complete and invest extra time to listen, ask questions, and treat your family like our own. Whether you're looking for a backyard fence or a custom deck, we'll work closely with you to make your outdoor dreams a reality.

Since 2009, we have designed and installed a variety of commercial and residential fences and decks, all backed by an industry-leading warranty. Built to withstand the toughest environments and last for generations, our products are all made with your goals in mind.

Founded by Jason and Sara Hurst as The Fence Experts, our goal has always been to give customers the best value—and best quality—by putting people at the center of our business model. We believe our business isn't just built by what we do, it's built by who we are. Our dedicated team of employees is passionate about what they do—and who they do it for. We are proud of each one of them and their commitment to go above and beyond what's expected to serve others.

OUR COMPREHENSIVE FIVE-YEAR WARRANTY

We believe our people, products, and installation practices are the best in the industry. If your fence or deck isn't structurally sound or functioning as it should be, we'll fix it free of charge for 5 years from the time of installation.

Your Step-By-Step Guide to
BUILDING A FENCE

From your first call to the moment we finish your fencing project, we’re here to guide you through the process and answer your toughest questions.

1

Step One
**SCHEDULE A FREE
ON-SITE CONSULTATION**

Not sure what you need? No problem. Give us a call and we’ll meet you on your property to discuss.

2

Step Two
CHOOSE YOUR FENCE DESIGN

From traditional wood to low-maintenance vinyl, we offer a range of materials and styles that add both beauty and function to your backyard.

3

Step Three
**LET INTEGROUS HANDLE
THE HARD PART**

From site prep to installation to clean up, we can do all the heavy lifting to make your fence project as seamless as possible.

4

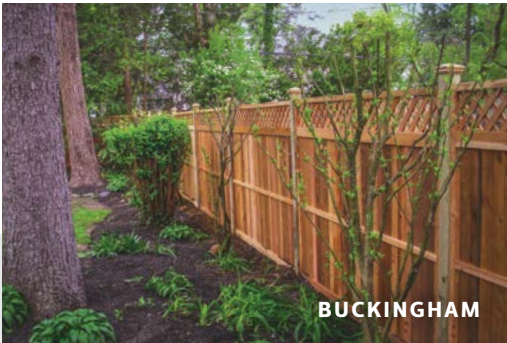

Step Four
ENJOY YOUR NEW FENCE

Relax and enjoy your new backyard space!

MATERIAL MATTERS

Learn more about the range of materials we offer and find your perfect fit.

	COST	MAINTENANCE	LONGEVITY
WOOD	\$ \$ \$	✗ ✗ ✗ ✗ ✗	★ ★ ★ ★ ★
METAL	\$ \$ \$	✗ ✗ ✗ ✗ ✗	★ ★ ★ ★ ★
VINYL	\$ \$ \$	✗ ✗ ✗ ✗ ✗	★ ★ ★ ★ ★

WOOD FENCES

A strong, natural choice, wood offers inherent strength and natural beauty that few other materials can rival – all at an excellent value.

BEST FOR

- Applications where classic appearance is desired
- Privacy and pet protection
- Maximum value

For popular styles, view Page 8

VINYL FENCES

Created in many of the traditional styles available in wood fencing, vinyl is a maintenance-free material that isn’t subject to natural aging.

BEST FOR

- Lifetime of use
- Long-term value
- Traditional wood designs without natural aging

For popular styles, view Page 10

METAL FENCES

The toughest of our materials, metal fencing is built with superior coatings and wall thicknesses that are designed for decades in the elements.

BEST FOR

- Durable design and classic appeal
- High security applications
- Applications where a visual barrier isn’t needed or desired

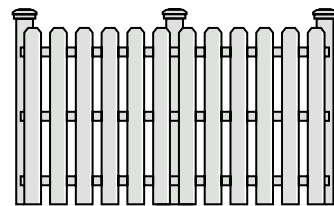

For popular styles, view Page 12

ORNAMENTAL FENCES

Enjoy Old World Style Without the Maintenance

Ornamental fencing is artistically crafted to bring the much-loved wrought-iron-look back to life in a maintenance-free design. This fence style is a classic masterpiece, yet delivers the durability and sturdiness of a modern metal fence. The combination of classical design with striking lines and sturdy metal construction makes these fences the perfect estate fence or feature enclosure for your backyard pool or outdoor living space.

FEATURES

- Combines classic design with sturdy metal construction
- Used as an estate fence or enclosure
- Minimal maintenance for a lifetime of use

AVAILABLE MATERIALS

Aluminum

Typically the best choice for ornamental fencing in many residential or light commercial applications.

SELECT YOUR STYLE

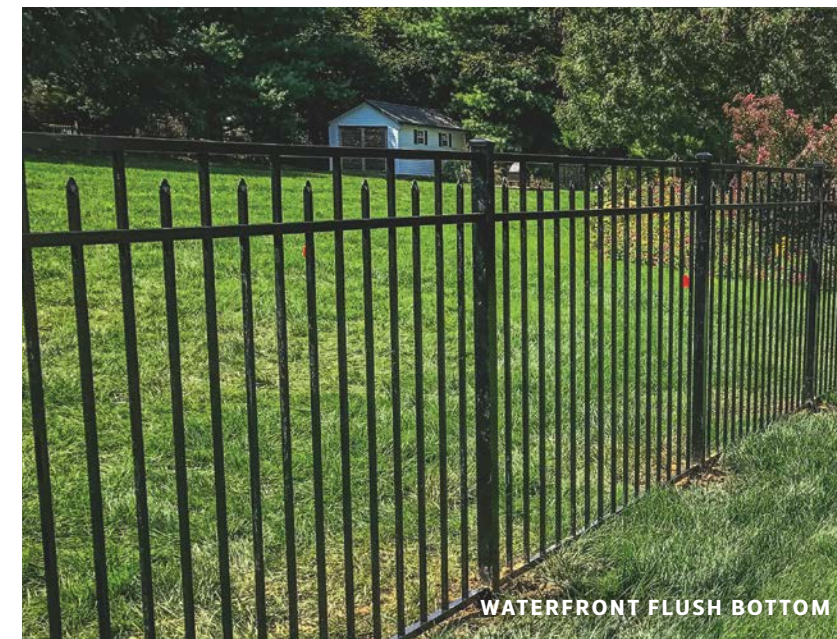

Ornamental fences are available in styles that range from a traditional open spear top design to the modern, simple sight lines of the two-rail Oceanview fence.

Steel

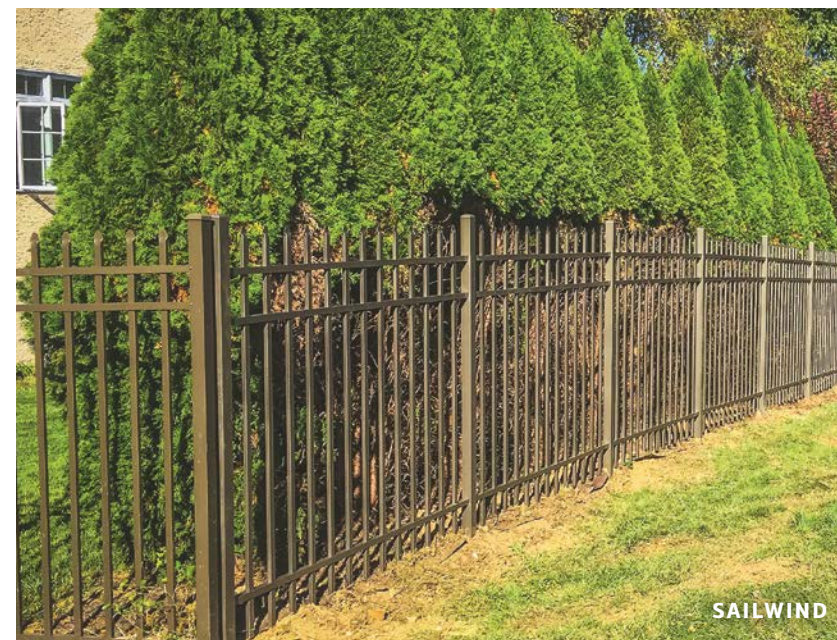

The best choice when more strength is required, including commercial and high-use applications.

PRIVACY FENCES

Define Your Space

Build your backyard getaway with a fence that adds definition to your property or creates a visual barrier. Whether you want to fully enclose a yard or define a private corner in a larger space, we offer an array of options and types that can bring style to any space.

AVAILABLE MATERIALS

Red Cedar

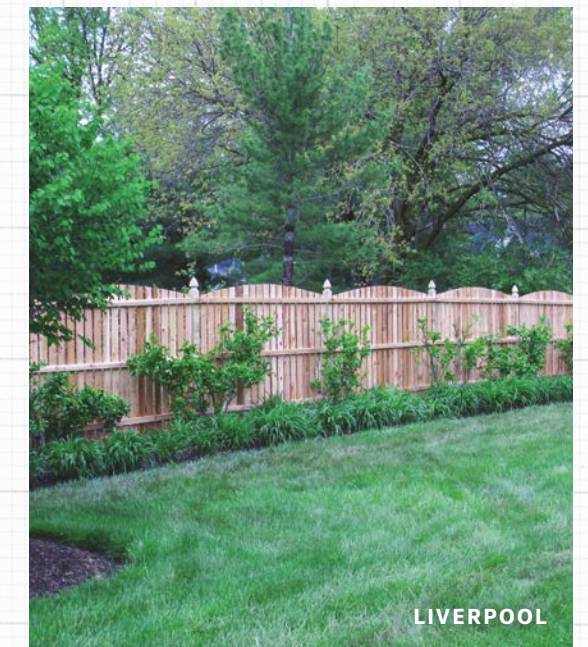

Known for its rich oils, red cedar is resistant to rot, breakdown from the elements, and warping. It's a maintenance-free option that naturally silvers with age.

Manchester Stockade

Budget-friendly and classic, this spruce wood fencing has traditional beveled, Gothic-style pickets. Ages to a natural gray color over time.

Vinyl

Matches the traditional styles found in wood without the ongoing maintenance or natural aging of wood fences.

SEMI-PRIVACY FENCES

Screen Your Surroundings

Semi-privacy fences provide a less rigorous visual barrier than full privacy fences, allowing for broken sight lines and more airflow while still limiting visibility. These fences allow you to clearly define your property or section off a portion of your yard without creating a completely secluded space.

AVAILABLE MATERIALS

Red Cedar

Known for its rich oils, red cedar is resistant to rot, breakdown from the elements, and warping. It's a maintenance-free option that naturally silvers with age.

Vinyl

Match the traditional styles found in wood without the ongoing maintenance or natural aging of wood fences.

PICKET FENCES

Combine All-American Style with Function

A picket fence is mindfully designed to fully capture the timeless quality and charm of a quintessential fence that was first made popular during America's colonial period. Ranging from classic to modern designs, picket fences offer security and definition to your property with a time-honored style that is hard to surpass.

FEATURES

- Fully customizable height, picket-spacing, and design
- Create safe enclosures for pets and children
- Timeless beauty and functionality

AVAILABLE MATERIALS

Red Cedar

Most popular wood option known for its rich oils that make it resistant to rotting and warping. A great choice for maintenance-free wood fencing that naturally silvers with age.

Vinyl

Available in a wide variety of styles and colors that mirror traditional wood, but without the maintenance or natural aging.

RAIL FENCES

Add the Look of a Classic Estate

A rail fence is known and loved for the beauty it brings to the rolling hills on a horse farm and for the natural, country feel it brings to a neighborhood yard. Designed for minimal visual obstruction, these fences bring security in a truly classic design that is sure to enhance your property while serving your family.

FEATURES

- Classic, minimalistic style
- Provides a safe space for kids or pets
- Can be used as an inground pool enclosure
- Fits into the most demanding landscapes and accommodates various terrains

AVAILABLE MATERIALS

Locust & Hemlock

This naturally rustic combination is maintenance-free and has no added chemicals, making it extremely safe for your pets, kids, and the environment. Locust is a very dense wood that is resistant to rot even when in contact with damp ground, making it ideal for posts. Hemlock is extremely stable and resistant to warping, making it perfect for rails.

Pressure-Treated Yellow Pine

This long-lasting wood brings years of service with very little maintenance. Typically smoother in appearance when compared to Locust/Hemlock, this material is a popular alternative.

Vinyl

Vinyl rail fences are designed to bring you a classic look without the natural aging of wood. Our high quality vinyl has extra wall thickness and internally reinforced rails, bringing you the sturdiness you'd expect from a rail fence that can easily withstand years of exposure to both the elements and your outdoor activities.

CUSTOM WOOD DESIGNS

You Dream It, We Build It!

We are passionate about designing and building wood products that are made to enhance your property in every detail. With that in mind, we craft all of our wood products in-house where we carefully choose the lumber, think through the designs, and build with attention to detail.

With a large custom wood shop and skilled and experienced craftsmen, we can build anything you can dream of to perfectly compliment your property and specific needs. From custom gates and fences to pergolas and entrance arbors, we are excited to partner with you on your wood project to make it extraordinary in every detail.

ESTATE GATES

Add Elegance While Securing Your Property

Enhance your property and make a real first impression with our customizable gates. Designed to match any of our metal fence styles, our estate gates can also be built to your desired width and height to fit your unique driveway.

FEATURES

- Makes your entire property secure for pets and kids
- Provides easy access for a business
- Adds instant curb appeal

AUTOMATED GATE OPERATORS

Provide Ease of Entry and Peace of Mind

Our automated entry systems can be customized to meet the needs of your property and provide you with the level of security you need. We offer a range of swing, sliding, or lift gates that are tailored to your home or business needs.

FEATURES

- Remote entry
- Anywhere, anytime connectivity with the LiftMaster app
- Telephone entry

CUSTOM NOTTING HILL RAIL GATE

WILDLIFE FENCES

Keep Wildlife Out or In

Provide a barrier for unwanted wildlife in your lawn or garden or a safe space to contain animals on your property. These fences are designed to blend in with your property and surrounding landscapes, providing the security of wildlife control without any visual obstruction. These fences can be installed with pressure-treated wood or steel posts, depending on your needs.

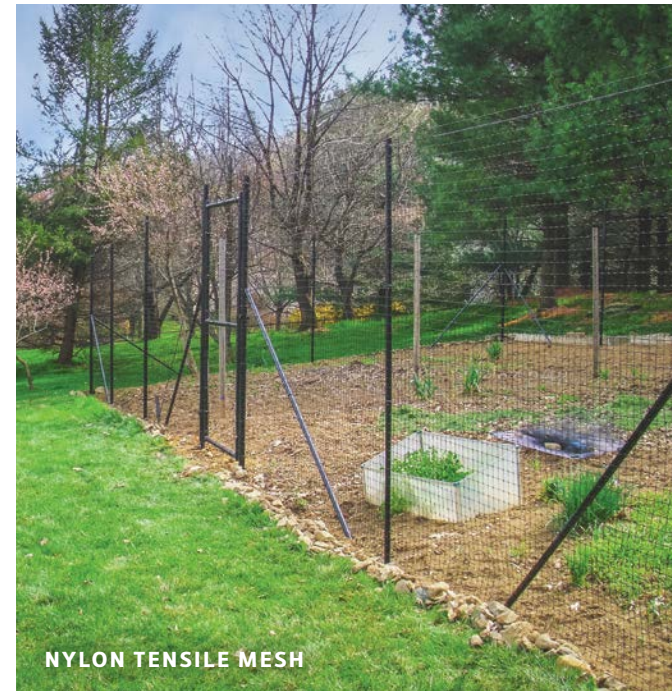

AVAILABLE MATERIALS

Nylon Tensile Mesh

Designed with a 15-year nylon mesh, this material is best used for residential applications. This mesh is easily replaceable and provides a good option for homeowners looking for a cost-effective wildlife exclusion solution.

Fixed Knot Steel

This long-lasting, heavy duty product is an effective solution to your wildlife containment or exclusion needs. Mesh is available in black vinyl coated or silver galvanized steel.

NYLON TENSILE MESH

FIXED KNOT STEEL

SOUND ABATEMENT FENCES

Quiet Your World

When you're creating a space that requires privacy from both the sights and sounds around your private residence (or you want to protect your neighbors from the noise created by your commercial location), a sound abatement fence is likely the right fit. These fences are specially designed to provide the maximum amount of sound remediation possible in tasteful designs that complement your property.

DESIGNED TO REDUCE NOISE

Our wood sound barrier fence is built with a double-sided picket design and a heavy-grade rubber material between the pickets, providing a dense, sound-absorbing barrier. Our Simtek vinyl fence is built with durable rotationally-molded vinyl polyethylene that is specially designed to block up to 98% of direct sound, providing the highest sound abatement solution next to concrete. Our sound abatement fences are crafted to provide you with the noise barrier you need for your residential or commercial needs.

AVAILABLE MATERIALS

We offer purposefully designed sound abatement fences in wood and vinyl materials only. However, any of our solid privacy fences in either wood or vinyl also offer some level of sound absorption and deflection.

INTEGROUS DECKS

DESIGN PROCESS

Integrous creates custom decks and porches that meet our customers' needs. We make your dream of a safe, beautiful outdoor living space a reality by bringing knowledge, craftsmanship, and integrity to deck construction.

SEE IT BEFORE YOU BUILD IT

If you can imagine it, we can design it. Our team has the skill and resources to create detailed drawings and 3D renderings of your new deck before construction begins. This way, you can see all the details—and make your vision a reality.

INSTALLATION MADE EASY

1

Step One

SCHEDULE A FREE CONSULTATION

Not sure what you need? No problem. Give us a call to schedule a project evaluation and we'll talk it through together.

2

Step Two

DECIDE ON YOUR DECK DESIGN

Once we learn more about your outdoor living space, we'll often create a 3D design and detailed scope for your project.

3

Step Three

LET INTEGROUS HANDLE THE HARD PART

From permitting to planning, we can do all the heavy lifting and make your deck installation as seamless as possible.

4

Step Four

ENJOY YOUR NEW DECK

Get out the grill and enjoy your new backyard oasis!

CHOOSE YOUR MATERIAL

We'll help you select the right material for your new deck, from natural wood to low-maintenance composite or PVC.

WOOD DECKING

Warm, traditional, and easy to work with, wood decks offer natural beauty and may come at a lower installation cost per square foot.

FEATURES

- Appears warm and natural
- Perfect for traditional look or historic home
- Does not get as hot in the sun as other materials
- Does not transmit static electricity as do man-made materials
- Lower installation cost options
- Requires maintenance with paint or stain

COMPOSITE OR PVC DECKING

Offering minimal maintenance and a 25–50-year manufacturer warranty, these durable materials stand the test of the time.

FEATURES

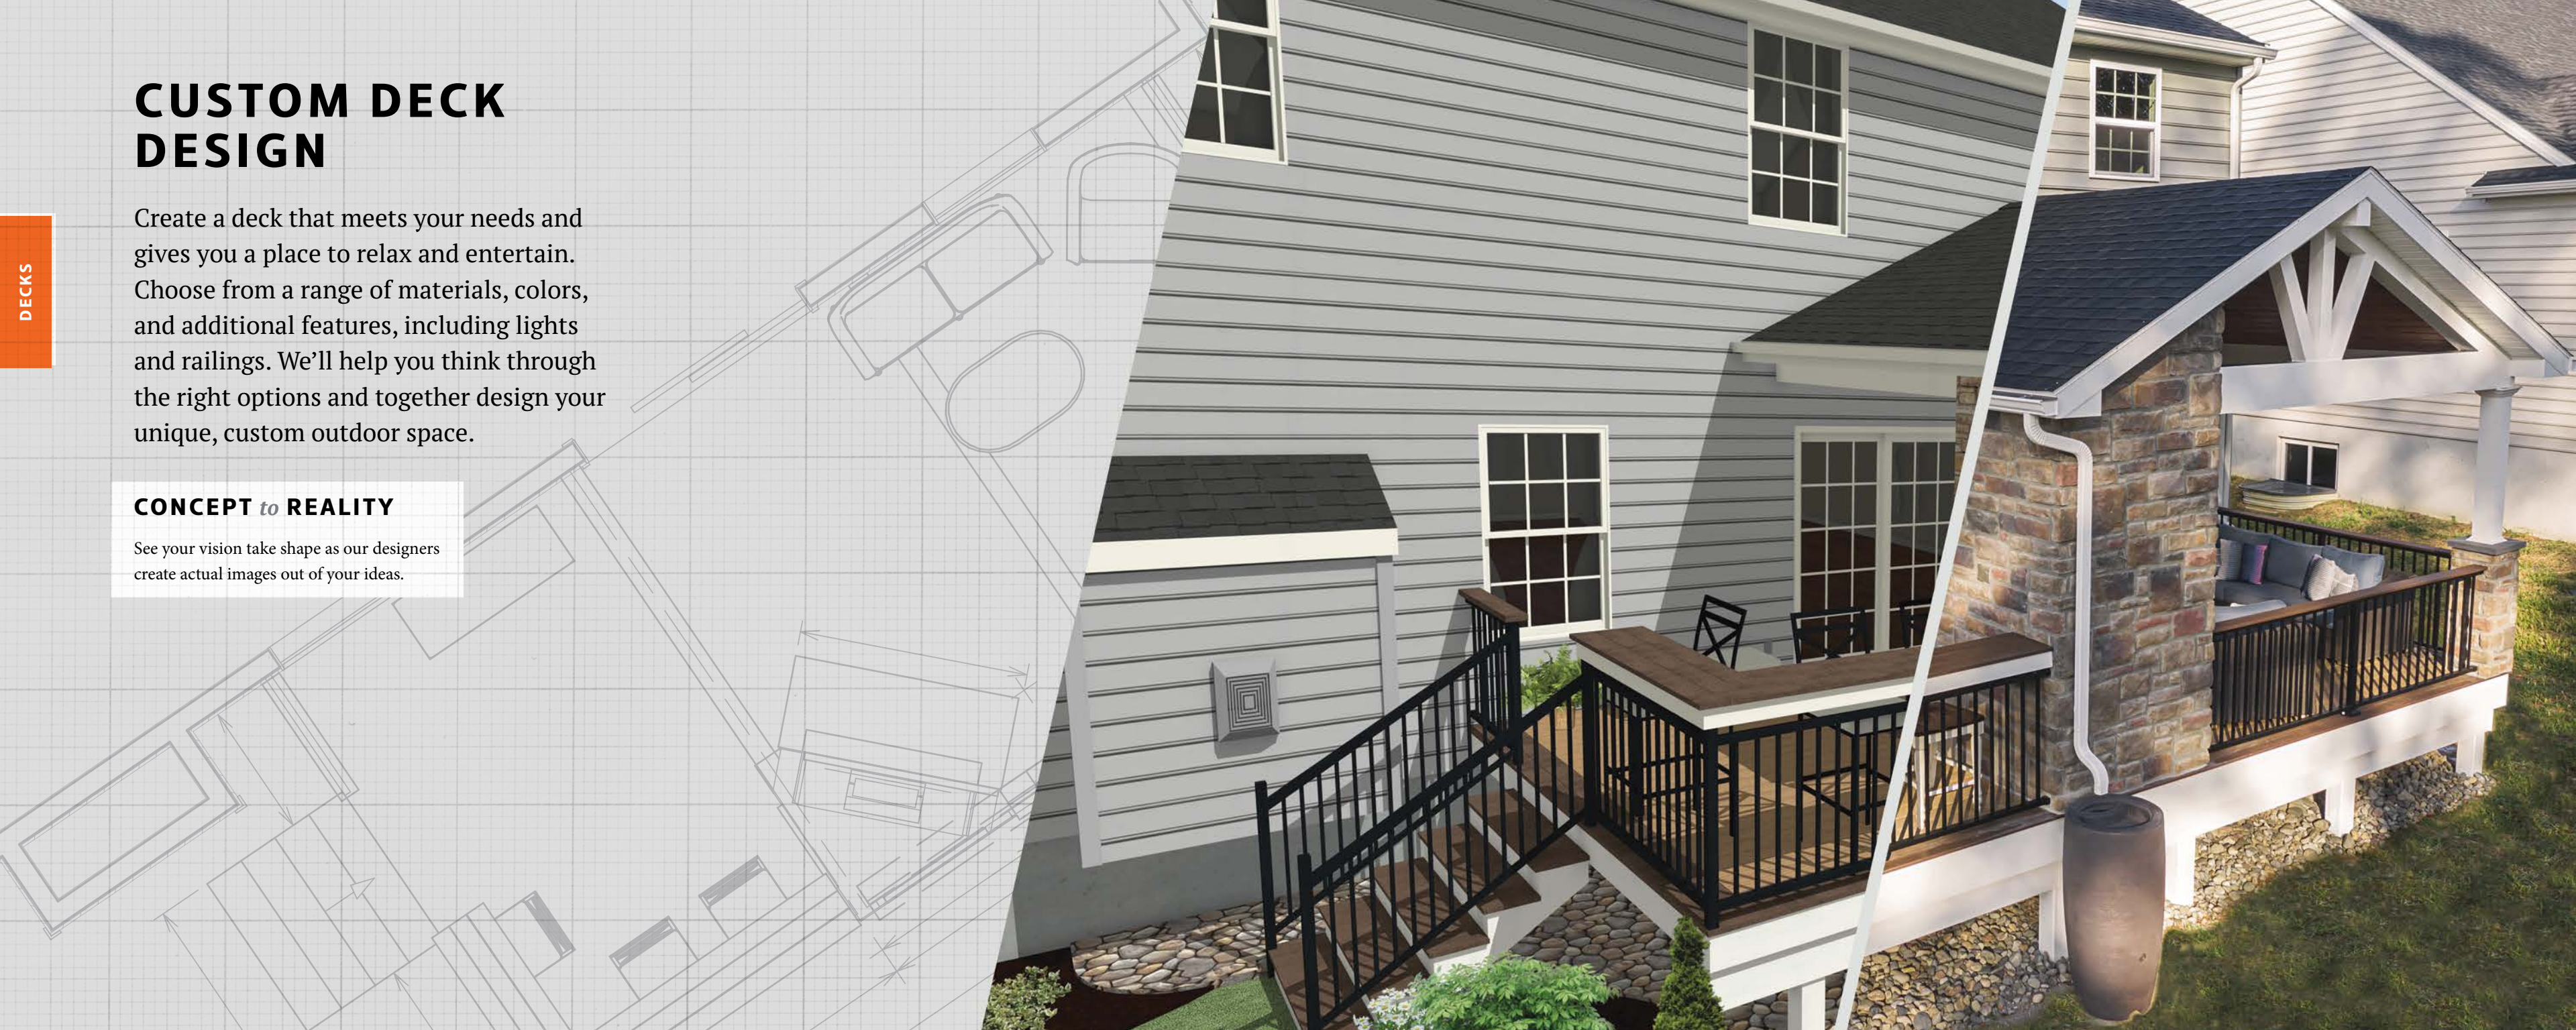

- Beautiful outdoor living without the maintenance of a traditional wood deck
- Ability to mix and match different colors, trim, railings, and shapes
- A more long-lasting investment than other materials
- Typically made with recycled materials, man-made options may provide an environmentally-friendly choice

CUSTOM DECK DESIGN

Create a deck that meets your needs and gives you a place to relax and entertain. Choose from a range of materials, colors, and additional features, including lights and railings. We'll help you think through the right options and together design your unique, custom outdoor space.

CONCEPT *to* REALITY

See your vision take shape as our designers create actual images out of your ideas.

FUNCTION & STYLE

Make Outdoor Living a Lifestyle

We build decks tailored to your needs and living space, working closely with you to find the style and design that fits your home and your lifestyle.

ATTACHED DECK

Designed to extend your living area, attached decks can be customized with a variety of materials, sizes, and designs. They can also include outdoor fireplaces, kitchens and a roof to protect against sun and rain.

DETACHED OR ISLAND DECKS

Add depth and a private retreat to any backyard with a deck located in an area away from your home.

SWIMMING POOL DECKS

Increase the usability of an above ground or inground pool with a quick-drying deck that extends your outdoor oasis.

ROOFTOP DECKS

Used in both urban commercial and residential environments, rooftop decks can be built with nearly any flat roof, creating a space for tenants or customers that increases your property's attractiveness and value.

AZEK ISLAND OAK DECK WITH AVALON
RAILING AND PLACID POINT RISER LIGHTS

VEKA CAYENNE DECK WITH VINYL/
ALUMINUM BALUSTER RAILING

TIMBERTECH AZEK DECKING WITH
MULTI-WIDTH ENGLISH WALNUT

COVERED DECKS & PORCHES

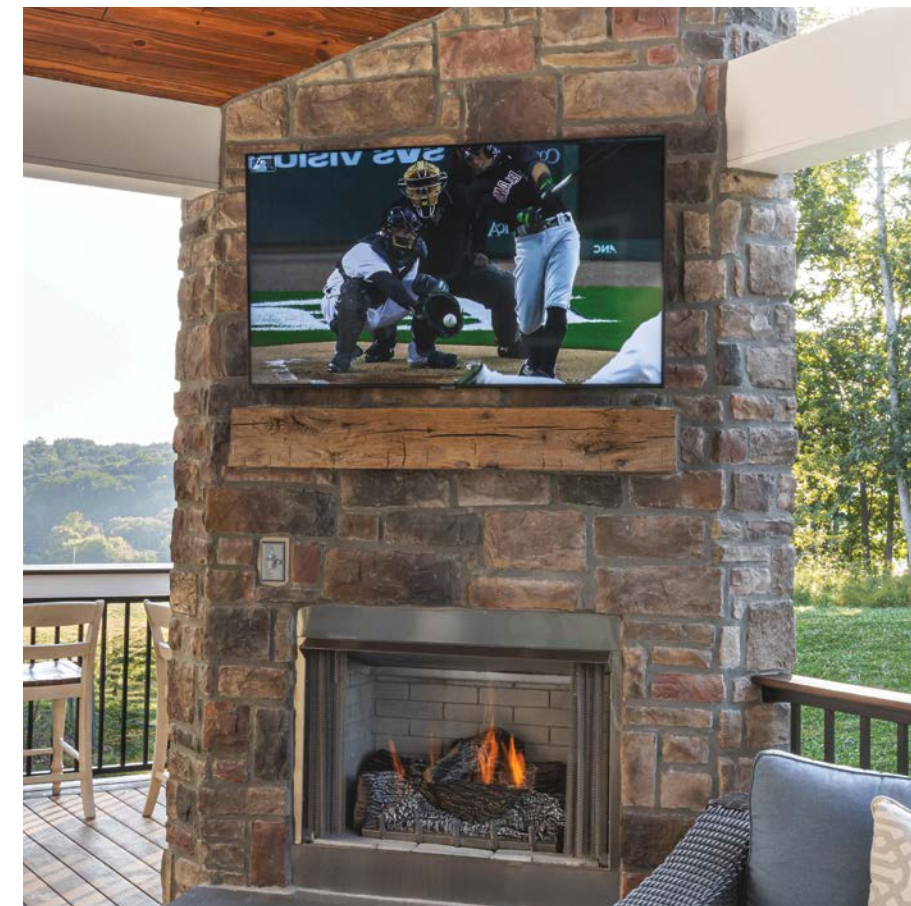

Create Your Outdoor Retreat

Bridge the gap between your indoor and outdoor living spaces with a fully or partially covered deck. Combining a covered area with an open deck is a great way to utilize the open air and warm sunlight while still being protected from the elements.

Or, you can create a fully enclosed area that allows you to maximize your time outdoors while being shielded from the rain or snow.

AVAILABLE ADD-ONS

- Fireplaces or warmers prolong your outdoor living season
- An outdoor kitchen makes it easy to entertain family and friends
- Ceiling fans, lighting, and an outdoor TV extend your living area

RAILINGS

Combine Function and Feature

Railing needs and styles vary widely, and Integrous is positioned to meet the complex demands of both residential and commercial projects. From standard options in aluminum, vinyl, or wood to custom-designed, handcrafted, welded steel railings, we offer a range of possibilities to fit your specific style and situation.

CHOOSING A RAILING

Whether you’re installing a railing with your new deck or updating a railing to meet code requirements, we have the right solution to meet your needs.

- Replace or update porch railing
- Meet code requirements for an elevated patio or retaining wall
- Provide safety for stairs or a walkway
- Add elegance to a new or existing deck

AVAILABLE MATERIALS

- Aluminum
- Vinyl
- Wood
- Metal
- Wrought Iron
